enate

Proof of Value

Overview

Enate's Proof of Value (EPoV) process helps our future customers understand how Enate will fit into their business and what benefits they can expect.

Are you asking yourself:

- How do I deliver great end-to-end services with a mixed bot/human workforce?
- What should I automate and when?
- How do I get accurate operational MI?
- How do I kill my spreadsheet trackers?

If so, read on...

Benefits of the EPoV

- Measurable performance improvement
- Better use of RPA resources
- Lower MI time overhead
- Faster time to change

What is included

- Enate professional services (build and skills transfer)
- Training for your CoE
- (unlimited) Enate licenses for 3 months

The fixed price for the package is £25,000

At the end of the 12 week EPoV you will have:

- A fully operational Enate environment
- Performance metrics demonstrating benefits for the processes that you have selected
- A number of users trained in how to work within the Enate environment
- A business case spreadsheet which shows the true value to you
- A trained CoE or team of implementation resources

Who else is working with Enate?

sdworx   sopra steria   Capgemini   GENERALI   CAPITA   serco
